SUMMARY

As a passionate and innovative developer & designer, I leverage my technical skills and creativity to build user-centric, innovative web solutions. With a skillful foundation in both frontend and backend, I am committed to delivering high-quality products that enhance user experiences. I am adept at working in dynamic project environments and always eager to learn and grow. My goal is to exceed client expectations and ensure a positive user experience.

EDUCATION

B.Tech Anil Neerukonda Institute of technology & Science – AU CGPA – 8.44 (Till date)	2020-2024
Intermediate Sri chaitanya jr. college – BIEAP CGPA – 9.45	2018-2020
Class X V T High School – SCC GPA – 9.0	2018

PROJECTS

- **ICDECT - 2024**
Project Link: <https://github.com/darshan1005/ICDECT>
Role: Project Developer
I created a dedicated website for the International Conference ICDECT-2024 using the React.js framework. The website offers comprehensive and quick information about the conference without any lag.
- **GRK- digitalfashions**
Project Link: <https://grkfashion.netlify.app>
Role: Project Developer
I developed a marketing platform for an Instagram page to showcase products. I used React.js and vite.js to implement features such as a search function and a copy link option. The platform improves user convenience by enabling users to copy links or access the product site directly
- **Sherlock Puzzles game**
Product Link: <https://sherlockholmes-puzzels.netlify.app>
Role: Project Developer
I created an engaging game that features a variety of entertaining mini-games and a main puzzle phase. The game is designed to let the user enjoy it at their space and test their problem-solving skills to the fullest. The game combines fun and challenge, enhancing the gaming experience for users

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Frontend Development:** HTML, CSS, Bootstrap, JavaScript, React.js
- **Mobile Development :** React Native
- **Backend Development:** Node.js with Express.js
- **Database Management:** MongoDB, MySQL
- **Version Control:** GIT Hub, GIT bash
- **Design Tools:** Figma, Web flow, Canva, Adobe illustrator

INTERNSHIP

- **Company and Role:** Served as a Frontend Developer Intern at 1STOP (Virtual Intern).
- **Projects Undertaken:** Successfully developed two key projects - a calculator and a task management table utilizing local storage.
- **Technologies Used:** Gained hands-on experience in HTML, CSS, Bootstrap, and JavaScript.
- **Skills Acquired:** This internship deepened my understanding of front-end development concepts and honed my skills in the aforementioned technologies.

CERTIFICATION

- 1stop internship & project completion.
- The complete 2023 web development Boot camp at UDEMY.
- Complete web design from FIGMA to WEBFLOW to FREELANCING at UDEMY.
- Hacker Rank CSS, Java Script (Basic).
- Solo Learn HTML, CSS.
- MSME (Medium small micro enterprise).

ACCOMPLISHMENTS

- Elected as President of IT Department Coding Club 2022 – 2023.
- Elected as Director of PRN media in Rotaract Club of ANITS 2021-2023.
- Top 15% ranking badge in front end development at LinkedIn.
- 1st Winner of photography at Radian 2k23.
- 3rd winner poster making at college level.

SOFT SKILLS

- Good at Communication
- Independent Working
- Team Work
- Motivation
- Creativity
